

## Definitions

Acting Goalkeeper (AGK). The AGK is the skater acting in the position of goalkeeper during goalkeeper substitution.

Batting the Ring. The ring is batted when a player intentionally moves the hand or arm to make contact with the ring, and makes such contact while the hand or arm is in motion.

Control. Control of the ring is gained when:

- a) a **skater** places the stick into the ring, propels the ring with the stick, or bats or kicks the ring.
- b) a goalkeeper, within the goal crease, prevents the ring from entering the net **and the ring comes to rest inside or contacting the goal crease**.
- c) **a goalkeeper, while not preventing the ring from entering the net, propels the ring with the stick, or bats or kicks the ring**.
- d) the ring comes to rest inside or contacting the goal crease.

**Note: For the free pass and goalkeeper ring, the team awarded the ring is deemed to be in control of the ring until it exits the free pass circle or crease.**

### Deflection

Deflection by a player occurs when any part of the body or equipment is intentionally placed in a stationary position to redirect the ring.

Deflection off a player occurs when the ring is unintentionally redirected by any part of the body or equipment, whether the player is in motion or not.

Goalkeeper. A goalkeeper is a specially equipped player, who has unique privileges to prevent the ring from entering the net.

Goalkeeper Ring. A goalkeeper ring is the awarding of the ring to the defending goalkeeper in lieu of a defending zone free pass.

Goalkeeper Substitution. Goalkeeper substitution is the replacement on the ice of the goalkeeper by a skater.

Kicking the Ring. The ring is kicked when a player intentionally moves the foot or leg to make contact with the ring, and makes such contact while the foot or leg is in motion.

Playing End of the Stick. The playing end of the stick is the lower one third of the total length of the Ringette stick, measured from the tip upwards toward the butt end.

Possession. The player / team that last contacted or controlled the ring has possession of the ring.

Prohibited Area. A prohibited area is a portion of the rink in which a player may not legally participate in play.

Restricted Area. The restricted area is the portion of the rink in each end zone extending from the end boards to, but not including, the free play line. Only a limited number of skaters are permitted to participate in play in this area.

## International Ringette Federation: Official Rules

Shot on Goal. A shot on goal is taken when the team in possession of the ring legally propels the ring toward the other team's goal and:

- a) the ring enters the net.
- b) the ring contacts a goal post or the cross bar.
- c) the ring contacts the goalkeeper or AGK within the goal crease.
- d) the ring contacts the goalkeeper outside the goal crease and that contact prevents the ring from entering the net.

Skater. A skater is a player other than a goalkeeper.

Zone. The central portion of the rink between the blue lines is the "centre zone"; the portion furthest from a team's defended goal is their "attacking zone"; and the closest portion is their "defending zone". Collectively, the attacking and defending zones are the "end zones". Each zone includes the entire blue line(s) bounding it.

## Section 1 – Playing Area

1.1 Ringette is played on an area of ice called a “rink”.

1.2 Lighting. The rink shall be lighted adequately so that the participants and spectators may conveniently follow play.

### 1.3 Rink Dimensions

1.3.a The rink shall be 60.96m (200 ft.) long and not less than 25.91m (85 ft.) nor more than 30.48m (100 ft.) wide. The corners shall be rounded in the arc of a circle with a radius of 8.53m (28 ft.).

1.3.b The rink shall be enclosed by boards, which may be constructed of wood, plastic, or any other similar material. Measured from the surface of the ice, the boards shall be no less than 1.02m (3 ft. 4 in.) and no more than 1.22m (4 ft.) in height. The surface of the boards facing the ice shall be white and shall be free from any obstruction or object that may cause injury to players. The base plate shall be light in colour and no more than 30.48cm (12 in.) in height.

*NOTE: It is recommended that glass, plexi-glass, or other similar material be mounted to the top of the boards, flush to the ice surface, to assist in the prevention of rings going into the spectator areas. Any fixtures used to hold the glass or similar material in position shall be mounted on the boards on the side away from the ice surface.*

### 1.4 Signal and Timing Devices

1.4.a The rink shall have a buzzer, siren, gong, or similar sound device to be used by the timekeeper.

1.4.b Game Clock. The rink shall have some form of clock in order that the participants and spectators may be accurately informed as to the game time (time remaining in the period). The clock shall also be capable of displaying the penalty time remaining to be served by up to two players per team. Where a clock with more than one face is used, the clock face directly opposite the timekeeper shall govern the time of the game.

1.4.c Shot Clock. The rink shall have a separate clock, in addition to the game clock, that counts down time in seconds. Two identical display units are required, one in each end zone. The display unit shall be mounted behind and above the end boards, no higher than the top of the glass, between the centre of the goal and the beginning of the arc of the corner to the goalkeeper's left. The position of the display units relative to the goal must be identical in each end zone.

### 1.5 Players' Benches

1.5.a Indoor rinks, and outdoor rinks if possible, shall have seats or a bench for the use of each team, to be known as the “players' benches”. Each players' bench shall accommodate at least fourteen players and shall be located immediately alongside the ice in the centre zone, as near as possible to the centre of the rink and convenient to the dressing rooms. Whenever possible, a walking space of 91.44cm (3 ft.) shall be left open behind the players' benches.

1.5.b The gates to the players' benches shall be constructed to open away from the ice surface.

**1.6 Penalty Bench**

- 1.6.a Indoor rinks, and outdoor rinks if possible, shall have seats or a bench to accommodate eight people, known as the “penalty bench”. The penalty bench shall be used for the seating of penalized players, the timekeeper, and the scorekeeper.

*NOTE: The penalty bench should be located on the opposite side of the rink from the players' benches, or if this is not possible, at least 6.10m (20 ft.) from both players' benches.*

- 1.6.b There shall be two gates to the penalty bench, constructed to open away from the ice surface. Adequate arrangements shall be made to physically separate members of the opposing teams. Where the penalty bench gates are located at unequal distances from the centre of the rink, the gate closest to the centre of the rink shall be designated for the visiting team.

**1.7 Dressing Rooms**

- 1.7.a Each team shall be provided with a separate dressing room, equipped with a toilet and shower.
- 1.7.b The on-ice officials shall be provided with a separate dressing room, equipped with a toilet and shower.

## Section 2 – Rink Markings

**2.1 Goal Lines.** Red lines 5.08cm (2 in.) wide shall be marked on the ice parallel to the end boards, 3.20m (10 ft. 6 in.) from each end of the rink. Each line, known as the “goal line”, shall extend 2.43m (8 ft.) from the centre of the ice, in both directions.

**2.2 Blue Lines.** Blue lines 30.48cm (12 in.) wide shall be marked on the ice parallel to the goal lines, positioned such that they divide the area between the goal lines into three equal parts. Each line, known as the “blue line”, shall extend across the ice surface and continue vertically on the boards.

### **2.3 Free Pass Circles**

2.3.a A circular red line 5.08cm (2 in.) wide, with a radius of 4.57m (15 ft.), shall be marked on the ice around the exact centre of the ice surface. This circle shall be known as the “centre zone free pass circle”.

2.3.b In each end zone, two circular red lines 5.08cm (2 in.) wide, with a radius of 4.57m (15 ft.), shall be marked on the ice. The centres of the circles shall be located 6.09m (20 ft.) from the goal line, 6.71m (22 ft.) on each side of the straight line bisecting the rink from end boards to end boards. These circles shall be known as the “end zone free pass circles”.

2.3.c Each free pass circle shall be bisected by a blue line 5.08cm (2 in.) wide, parallel to the goal lines. A blue dot with a diameter of 30.48cm (12 in.) shall be marked at the centre of each half circle.

**2.4 Free Play Lines.** Red lines 5.08cm (2 in.) wide shall be marked on the ice parallel to the blue lines, completely overlapping the end zone free pass circles at the point on each circle closest to the blue line. Each line, known as the “free play line”, shall extend across the ice surface and continue vertically on the boards.

### **2.5 Goal Net**

2.5.a On the centre of the goal line, midway between the side boards, goal posts and nets shall be placed with the posts resting on the goal line. The goal nets may be either free moving or stabilized by the use of magnetic anchors or a similar system. Should the nets be stabilized, they must remain easily moveable from their regular position when minimal force is applied.

2.5.b The goal posts shall be 5.08cm (2 in.) in diameter and 1.83m (6 ft.) apart, measured from the inside of the posts. They shall extend 1.21m (4 ft.) vertically from the ice surface and a cross bar of the same material shall be securely fastened horizontally from the top of one post to the top of the other post.

2.5.c A net shall be attached to the back of the goal posts and cross bar.

2.5.d The goal posts, cross bar, and the exterior surface of other supporting framework shall be painted red. The surface of the base plate and supports inside the goal net shall be painted a light colour.

### **2.6 Goal Crease**

2.6.a A semi-circular blue line 5.08cm (2 in.) wide, with a radius of 2.43m (8 ft.), shall be marked on the ice in front of each goal net. The semi-circle shall be drawn from a spot located on the centre of the goal line, midway between the side boards.

2.6.b The area enclosed by the semi-circle, including the semi-circular line and the goal line, shall be known as the “goal crease”.

## International Ringette Federation: Official Rules

- 2.7 On-Ice Officials' Crease.** A semi-circular red line 5.08cm (2 in.) wide, with a radius of 3.05m (10 ft.), shall be marked on the ice immediately in front of the timekeeper's seat. The enclosed area, including the line, shall be known as the "on-ice officials' crease".

## Rink Layout

## The Goal Crease

- 3.2** Each player must wear a clearly visible individual number on the back of the sweater. The number shall be a maximum of two digits, must be at least 25.40cm (10 in.) in height and must contrast in colour with the sweater. A number different than that on the sweater may not appear elsewhere on the uniform.
- 3.3** The visiting team is responsible for changing its sweaters if the colours of the competing teams conflict. The decision to change sweaters is the responsibility of the on-ice officials.
- 3.4** Jewellery, such as wristwatches, rings, earrings, bracelets, and necklaces (other than Medic Alert), or other items judged to be dangerous by an on-ice official shall not be worn by on-ice participants during the game.

- 4.2.a Skaters may only use a Ringette stick. Skaters cannot use a goalkeeper's stick.**
- 4.2.b The Ringette stick may be made of wood, plastic, aluminium or any similar material. In the case of composite sticks that employ more than one material in their construction, only shafts and tips that are specifically manufactured for each other may be used.
- 4.2.c Both ends of the stick must be free of cracks and splinters. If the surface of the stick is textured, the difference between the lands and grooves must not exceed 1mm (0.04 in.). Tape may not be added to the playing end of the stick.
- 4.2.d Width. The width of the shaft must not be less than 27mm (1.06 in.) nor more than 35mm (1.38 in.). The width faces of the stick must form two straight parallel planes from end to end.
- 4.2.e Thickness. The thickness of the shaft must not be less than 17.5mm (0.69 in.) nor more than 25mm (0.98 in.). The thickness faces of the stick must form two straight parallel planes except at the playing end, which, if tapered, must be symmetrical and formed of straight faces. If the taper is multifaceted, the angle between faces must not be less than 150°. The taper length must not be more than 250mm (9.84 in.) from the tip.
- 4.2.f Tip. The thickness of the tip at the playing end must not be less than 12mm (0.47 in.). The tip of the playing end must be at 90° to the parallel portions of the thickness and width faces.
- 4.2.g Length. The maximum length of the Ringette stick depends upon the height of the player. Measured while the player is standing on skates with the arm extended at 90° to the body, the maximum length of the stick is from the ice to the height of the underarm.

International Ringette Federation: Official Rules

- 4.10.a No player other than a goalkeeper may use or wear equipment specifically designed for goalkeeper use.
- 4.10.b With the exception of the skates and stick, all equipment worn by the goalkeeper must be constructed solely for the protection of the head or body, and must not include any equipment or contrivance that would give the goalkeeper undue assistance in keeping goal.
- 4.10.c Goalkeepers must wear either a certified hockey helmet with a full facial protector that is certified to be worn with their helmet, or a certified goalkeeper-specific head and full facial protector.
- 4.10.d In addition to the protective equipment listed above (rules 4.6 to 4.9), goalkeepers must wear goalkeeper's pads and a chest protector.

- 4.11.d If the equipment measured is within specifications, the requesting team shall be assessed a Delay of Game penalty.
- 4.11.e If the equipment measured is not within specifications, the offending player shall be assessed a Delay of Game penalty. An illegal stick, unless it is only too long for that skater, shall be removed from the game. The player serving the penalty must take a legal stick to the penalty bench. In the case of goalkeeper equipment, the illegal pads, blocker, or catching glove may not be used unless they are adjusted and made legal.

## Section 5 – Game Time

- 5.1 A regulation game shall consist of four fifteen minute periods of actual playing time (stop time).
- 5.2 Should four periods of the above duration not be possible, then four equal length periods shall be played.
- 5.3 Overtime periods shall be the same length as regulation periods.

NOTE: *Overtime periods are considered part of the same game; any penalty that has not expired at the end of regulation time remains in effect.*

  - 5.4.c (3) a delayed penalty is signalled. If additional delayed penalties are signalled before play is stopped, the shot clock shall not be reset again.
  - 5.4.c (4) a penalty causes the non-penalized team to commit a violation and play is stopped as a result.
  - 5.4.c (5) a player on the team not in control of the ring commits a violation, and play is stopped as a result.
  - 5.4.c (6) a player on the team not in possession of the ring is injured, and play is stopped as a result.
- 5.4.d When the shot clock reaches zero seconds, an audible signal will sound:
  - 5.4.d (1) play is stopped, as the team last in control of the ring has committed a violation.
  - 5.4.d (2) the shot clock is reset to 30 seconds.
  - 5.4.d (3) the ring is awarded to the non-offending team, in the nearest circle within the zone in which the ring was last contacted or controlled.

  - 5.4.e (2) the shot clock is reset to 30 seconds.
  - 5.4.e (3) the ring is awarded to the team last in control of the ring, in the nearest circle within the zone in which play was stopped.
- 5.4.f If the shot clock is reset in error, play continues.

- 5.4.g The shot clock display units shall be turned off when there is less time remaining in the period than there is on the shot clock. If the display units cannot be turned off, then the shot clock shall be reset to 30 seconds and stopped.

- 5.5.d Both teams may take a timeout during the same stoppage in play. The second team's timeout request must be made to an on-ice official before the first timeout expires. The two timeouts shall run sequentially for one minute. A second team's timeout request that is made after the other team's timeout has expired shall not be granted during the same stoppage in play.
- 5.5.e No rings are permitted on the ice for use by the teams during timeouts.

## Section 6 – Team Rules

- 6.1** A team shall have no more than twenty and no fewer than seven players.
- 6.2** Once the game has started, a team must be able to ice a minimum of four players. Failure to comply will result in forfeiture of the game.
- 6.3** Official Game Report. Before the start of the game, the team must record on the Official Game Report the names and the numbers of all players who are eligible to play in the game and indicate which are goalkeepers, alternate goalkeepers, captains, or alternate captains. The names of team staff members must also be recorded. Only those persons registered on the Official Game Report are permitted to occupy the players' bench.
- 6.3.a If players are late for the game and their names were recorded on the Official Game Report prior to the game, they shall be permitted to participate.
- 6.3.b If players have been inadvertently omitted from the team list, their names and numbers may be added to the Official Game Report and they shall be permitted to participate, provided that they were on the ice or in the players' bench, in uniform, at the start of the game. No other changes or additions to the list are permitted after the commencement of the game.
- 6.3.c A goalkeeper who has been replaced on the ice, or a player designated on the Official Game Report as an alternate goalkeeper, may play as a skater provided that the player wears the required protective equipment but no goalkeeper-specific equipment.
- 6.4** Team Captains
- 6.4.a A team may appoint a maximum of three skaters as captains or alternate captains. A goalkeeper or alternate goalkeeper may not be designated a captain or alternate captain.
- 6.4.b Captains shall wear the letter 'C' and alternate captains the letter 'A' on the upper front left of their sweater. The letter must be at least 7.62cm (3 in.) in height and contrast in colour with the sweater.
- 6.4.c Captains and alternate captains must be designated, both on the Official Game Report and on their sweater, prior to the start of the game. Failure to do so will result in the loss of captain or alternate captain privileges.
- 6.4.d Only captains and alternate captains may question an on-ice official regarding non-judgement rule clarifications, and only during a stoppage in play. A player who is assessed a penalty immediately loses this privilege for the duration of that penalty.
- 6.5** Refusal to Start Play. If a team withdraws from the ice or refuses to start play and:
- 6.5.a if that team starts play within one minute of being advised to do so by an on-ice official, a Delay of Game penalty shall be assessed to that team and the game continues.
- 6.5.b if that team fails to start play within one minute of being advised to do so by an on-ice official, that team forfeits the game.
- 6.5.c if that team withdraws from the ice or refuses to start play for the second time in the same game, that team immediately forfeits the game.

## Section 7 – The Play

- 7.1** The team scoring the greater number of goals during regulation time is the winner of the game. If the score is tied at the end of regulation time, **a tie is broken as ruled by the tournament organizers or the local governing body.**
- 7.2** The home team shall have the choice of goal areas to defend for the first and third periods of the game. The teams shall exchange goal areas to defend for the second and fourth periods.
- 7.3** While play is in progress, no more than six players (five skaters and a goalkeeper) per team are permitted on the ice at one time.
- 7.3.a Players may substitute at any time; however, they may only enter or leave the ice through the players' bench gates.
- 7.3.b A skater may be substituted for the goalkeeper **at any time.**
- 7.4** Blue Line. The ring must be passed, shot with the stick, deflected, batted, or legally kicked to another player across each blue line.
- 7.4.a The last player to contact or control the ring when it was entirely on one side of a blue line may not contact or control the ring when it is entirely on the other side of that blue line before the ring is contacted or controlled by another player.
- 7.4.b A ring on or touching a blue line is simultaneously in both of the zones bounded by that line and is playable by all eligible players.
- 7.5** Two Blue Line Pass. The ring may not be passed to a teammate directly from one end zone to the other end zone.
- 7.5.a Teammates of the player who last contacted the ring in one end zone before it traveled untouched to the other end zone may not contact or control the ring before the ring is contacted or controlled by an opponent.
- 7.5.b When the ring has traveled untouched from one end zone to the other end zone, a skater (or the goalkeeper, if that player leaves the goal crease) of the team that is eligible to play the ring must proceed to the ring without delay and play it within a reasonable time. Otherwise, the ring is playable by either team.
- 7.5.c If the ring travels from one end zone across the centre zone untouched and contacts the second blue line, play continues unless a teammate of the player who last contacted the ring carries the ring directly into the other end zone.
- 7.6** Free Play Line
- 7.6.a Except during goalkeeper substitution, a maximum of three skaters from each team is permitted in the restricted area in each end zone.
- 7.6.b During goalkeeper substitution, a maximum of four skaters from the team making the substitution is permitted in the restricted area in each end zone.
- 7.6.c When a team is serving two penalties, at least one skater from that team must remain outside their defending zone restricted area.
- 7.6.d Skaters may exchange at a free play line once both feet of the exiting player have contacted that line.

- 7.6.e A skater in excess of the maximum number permitted in the restricted area may not contact or control the ring while any part of that player, including the stick, is in that area.
- 7.6.f While the ring is in an end zone, if the team in **control of the ring has more than the maximum number of skaters permitted in that restricted area, play is stopped immediately.**
- 7.6.g While the ring is in an end zone, if the team not in possession of the ring has more than the maximum number of skaters permitted in that restricted area:
- 7.6.g (1) if any skater of that team becomes involved in the play in the restricted area while there are too many skaters in that area, the excess skater is assessed a Delay of Game penalty.
- 7.6.g (2) if no penalty is committed, play is stopped if that team gains control of the ring before it exits the restricted area and within five seconds of all excess skaters exiting that area.
- 7.6.h A ring on or touching a free play line may be played by all skaters, provided that:
- 7.6.h (1) the ensuing play does not cause a free pass violation.
- 7.6.h (2) skaters in excess of the maximum number permitted in the restricted area do not become involved in the play in that area.
- 7.7 Goal Crease.** The goalkeeper, or the acting goalkeeper (AGK) during goalkeeper substitution, is the only player permitted in the goal crease in their team's defending zone. No other player may contact or control the ring unless it is entirely outside the goal crease.
- 7.7.a If a skater from the team in **control of the ring in that zone enters the goal crease, play is stopped immediately.**
- 7.7.b If a skater from the team not in **control the ring enters the goal crease, play is stopped if that team gains control of the ring in that zone, before it exits the same zone and within five seconds of:**
- 7.7.b (1) that player exiting the goal crease.
- 7.7.b (2) the later of that player or the ring exiting the goal crease, if the ring was inside or contacting the goal crease when the skater entered the goal crease.
- 7.8** A team putting the ring in a position to be tied up (along the boards or into a crowd of players) resulting in a stoppage of play would result in a free pass with the ring being awarded to the other team.
- NOTE: The ring is awarded to the team that did not initially control it if the player first in control momentarily removes the stick from the ring, allowing an opponent to gain control, and then takes joint control.*
- 7.9** If another ring or foreign object appears on the ice while play is in progress, play continues unless, in the opinion of an on-ice official, the presence of the second ring or foreign object is affecting the play.

## Section 8 – Goalkeeper Play

- 8.1** Snow may not be piled on, around, or in the goal crease with the intention of forming a barrier to help keep the ring out of the goal area. Roughing up the ice is permissible.
- 8.2** Goalkeepers may become involved in the play only in their team's defending zone and the centre zone.

  - 8.4.b may, if the goalkeeper is inside the goal crease, throw the ring into play in the defending zone. The ring may not be thrown across the goalkeeper's defending blue line. If the ring is thrown and it contacts the blue line, play continues unless a teammate carries the ring directly into the centre zone.
  - 8.4.c may step outside of the goal crease in the act of throwing the ring into play, but must have at least one skate on or inside the goal crease when the ring is released.

  - 8.6.d when the ring is inside or contacting the goal crease, the ring must be put into play entirely outside the goal crease within 5 seconds. The AGK may only put the ring into play in the defending zone, no matter what method is used to move the ring. ## Section 9 – The Free Pass and Goalkeeper Ring

- 9.1 Free Pass.** For all free passes, the ring is placed in the centre of the half of the free pass circle closer to the goal area defended by the team awarded the free pass. Following the whistle to start play:
- 9.1.a the player taking the free pass **can only enter the half of the free pass circle in which the ring has been placed and is the only player permitted in the free pass circle.** If there is no player from the team awarded the free pass in the free pass circle when the whistle is blown, then the first player from that team to enter the free pass circle must take the free pass.
  - 9.1.b the player taking the free pass must, using the stick, put the ring into play entirely outside the free pass circle within five seconds.
  - 9.1.c the player taking the free pass may move anywhere within that half of the free pass circle, up to and including the outer edge of that half circle, but may not leave that half of the free pass circle until the ring is entirely outside the free pass circle.
  - 9.1.d the player taking the free pass may not contact or control the ring once it is entirely outside the free pass circle before the ring is contacted or controlled by another player.
  - 9.1.e no other player may contact or control the ring before it is entirely outside the free pass circle.
  - 9.1.f if a teammate of the player taking the free pass enters the free pass circle before the ring is entirely outside the free pass circle, play is stopped immediately.
  - 9.1.g if a player from the team not taking the free pass enters the free pass circle before the ring is entirely outside the free pass circle and that team gains control of the ring in that zone, before it exits the zone and within five seconds of the ring exiting the free pass circle, play is stopped.
- 9.2 Goalkeeper Ring.** A defending zone free pass is replaced by a “goalkeeper ring”, unless the stoppage in play is caused by the ring leaving the playing area, an injury, a penalty assessment, or a nullified goal, or if a timeout is taken during that stoppage in play.
- 9.2.a The ring is directed to the defending goalkeeper inside the goal crease.  
  
*NOTE: Should the attacking team be in control of the ring when play is stopped, the player in control of the ring must immediately transfer the ring to the defending goalkeeper in a reasonable manner, or leave the ring, to allow it to be transferred to the goalkeeper by the nearest defending player or on-ice official.*
  - 9.2.b The play may be started as soon as the goalkeeper has control of the ring inside the goal crease. Following the whistle to start play:

- 9.3.b If overtime is required, the free pass award to begin the first overtime period shall be decided by a coin toss. A free pass, in the centre zone, is awarded to the team winning the coin toss; the other team shall have the choice of goal areas to defend for that period. If additional overtime periods are required, each period the teams shall alternate the starting free pass award in the centre zone and exchange goal areas to defend.

#### 9.4 Resuming Play

- 9.4.a Goal. After a goal is scored, a free pass is awarded to the team that was scored against, in the centre zone.
- 9.4.b Penalty. If play was stopped due to a penalty, a free pass is awarded to the team that did not cause the stoppage of play in the nearest circle within the zone where play was stopped, with the following exceptions.

- 9.4.d (2) (b) **play was stopped due to the goalkeeper throwing the ring, or the AGK directing the ring in any manner, into the opposing net directly, off the defending goalkeeper, or off an on-ice official.**
- 9.4.d (3) **if a penalty was committed by the team not in control of the ring and the ring traveled untouched from one end zone to the other end zone:**
- 9.4.d (3) (a) and play was stopped because the ring came to rest entirely across the second blue line or because the penalized team gained control of the ring, the free pass is awarded to the non-penalized team in the centre zone.

- 9.4.d (3) (b) **and play was stopped because the ring was controlled by the non-penalized team, the free pass is awarded to the penalized team in their attacking zone.**
- 9.4.e Injury / Foreign Object / Spectator Interference. If play was stopped due to an injury, a foreign object affecting play, or spectator interference, the ring is awarded to the team that was in possession of the ring when play was stopped, in the zone in which they last contacted or controlled the ring.
- 9.4.f Refusal To Start Play. If a team, having withdrawn from the ice or refused to start play, starts play within one minute of being advised to do so by an on-ice official, a free pass is awarded to the non-offending team in the centre zone. If the non-offending team had already been awarded a free pass in their attacking zone at the time of the withdrawal, the free pass will take place in that zone.
